7.1.3 - Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste (within 200 words) Solid waste management Liquid waste management Biomedical waste management E-waste management Waste recycling system Hazardous chemicals and radioactive waste management.

To maintain clean and green campus has been the top agenda of our institute. College has a green campus and gives priority to keep the **campus clean and eco friendly**. The solid waste management is classified as degradable and non degradable wastes. For the degradable solid waste management we have open composting and **Vermin composting unit**. Solid waste is collected in dustbins kept at several places. The leaf litter, twigs of the plants used for practical in Botany department are collected and subjected to composting. Vermin compost is harvested and used for plants as manure in campus garden. Non degradable waste contains building debris, plastic, glass, metal scrap etc. Recyclable plastic, glass waste, metal scrap is sold to scrap merchant and Building debris is used for land filling in the campus.

E-waste management- E-waste generated is collected and stored in the store room. All collected waste has been sold to authorized vender.

Hazardous chemicals and radioactive waste management – No
 Radioactive waste is generated in the campus.
